

Markers

Floor Marker, Pallet Racking Marker, Wall Marker, VL-marker

Our Floor, Pallet Racking, Wall and VL-markers are designed to be implemented in production and logistics facilities. By giving guidance to the mobile robot and helping it to navigate through marking locations within the environment the markers optimize industrial automation. Individual QR-codes can be added to the designated areas to be scanned by the mobile robot.

Your key benefits

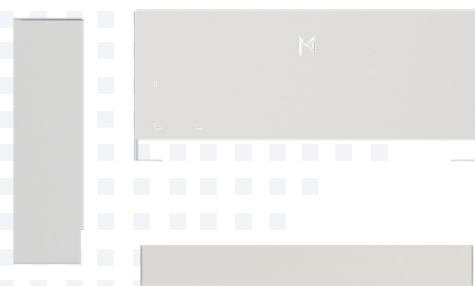

- The markers can be used for the navigation of MiR100, MiR200, MiR500 and MiR1000
- In the left corner of each marker an area is marked by cut-out holes - these mark the position for a QR code to be placed, which can be scanned to let the mobile robot instantly know where it is in the production site
- The markers are available in various sizes to fit into different production and logistics environments

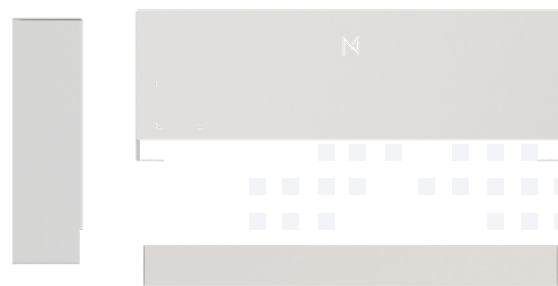

Accessories to customize your logistics

Technical specifications

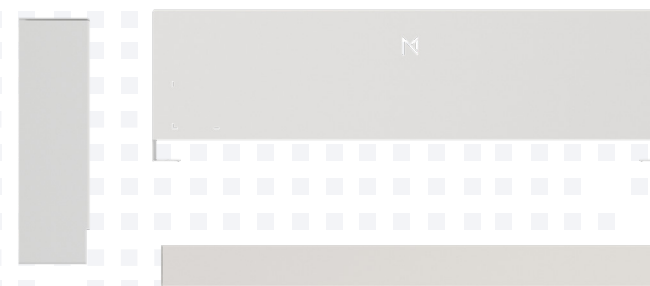

Parameter	Floor Marker 800 mm	Floor Marker 1000 mm	Floor Marker 1200 mm
Length	800 mm 31.5"	1000 mm 39.4"	1200 mm 47.3"
Height	350 mm 13.8"	350 mm 13.8"	350 mm 13.8"
Width	100 mm 4.0"	100 mm 4.0"	100 mm 4.0"
Color	RAL 7035	RAL 7035	RAL 7035
