

PM1500, PM1548

VL Marker/Wall Marker

The VL Markers and Wall Marker are designed to be implemented in production and logistics facilities.

By giving **guidance to the mobile robot and helping it to navigate through marking locations** within the environment the markers optimize industrial automation. Individual QR codes can be added to the designated area to be scanned by the AMR. In the left corner of each marker an area is marked by cut-out holes – these mark the position for a QR code to be placed.

Through scanning this QR code the mobile robot instantly knows where in the production site it is located.

KEY BENEFITS

Suitable for different AMR's

QR codes can be added

Help the AMR navigate smoothly

Fits into different production

Fits into different logistics environments

TECHNICAL SPECIFICATIONS

PARAMETER	VL MARKER, PM1500	VL MARKER, PM1548	WALL MARKER, 300
Height	300 mm 11.9"	300 mm 11.9"	300 mm 11.9"
Length	1058 mm 41.7"	1278 mm 50.4"	300 mm 11.9"
Width	110 mm 4.4"	110 mm 4.4"	208 mm 8.2" (depth)
Color	RAL 7035	RAL 7035	RAL 7035
Space between floor and marker	100 mm 3.9"	100 mm 3.9"	

WORKS WITH

PM1500, Pallet Mover

PM1548, Pallet Mover

QM180, Quick Mover

All AMR's

VL Marker, From the side

Wall Marker 300

VL Marker, From above
