# Nord Dock Target-MiR

The Nord Dock Target from Nord Modules works with the Nord Modules Pallet Mover and allows for docking of the AMR and safe loading/unloading of pallets to and from an existing conveyor line.

The Dock Target is installed at the end of a conveyor line and is adjustable in height.

The Nord Dock Target communicates wirelessly with the Pallet Mover to ensure safe loading or unloading of pallets bestween the conveyor and the Pallet Mover.

Nord compatibility

Nord PM800 & Nord PM1000

MiR compatibility

MiR600 & MiR1350

Designated use	For docking and loading or unloading of pallets
Robot compatibility	MiR500, MiR600, MiR1000, MiR1350
Nord Modules compatibility	Nord PM800-MiR & Nord PM1000-MiR
Color	RAL 7035
Disclaimer	*Specifications may vary based on local conditions and application*

✓ Simple and fast assembly

✓ Small footprint around the AMR
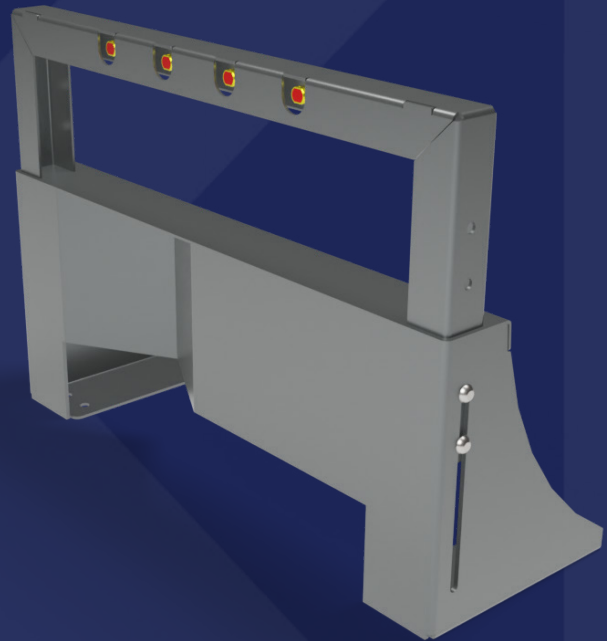

✓ Works with existing conveyor

✓ Can be customized to specific needs

✓ Adjustable height
